## RECONFIGURE PC-SECURE WIRELESS CONNECTION USING APPLE MACOS
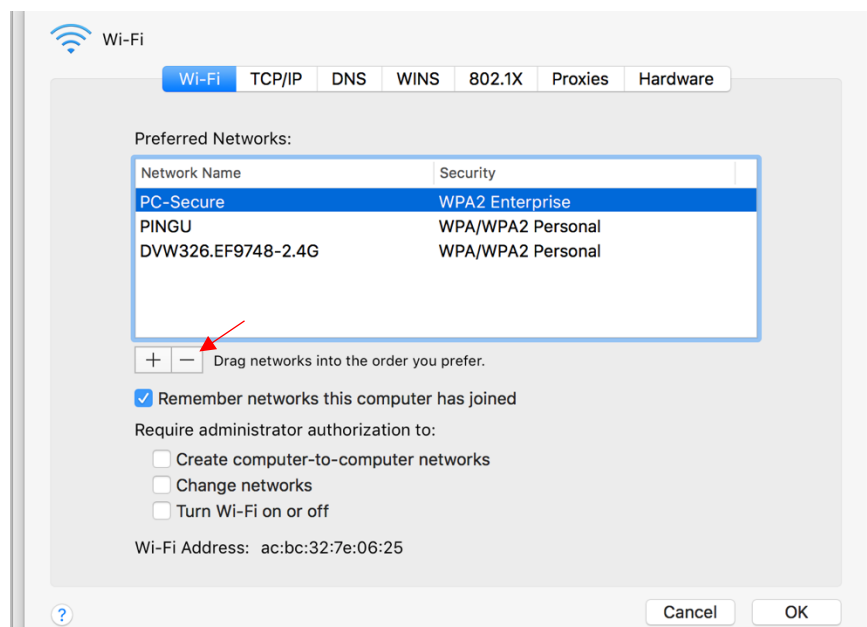

1. Click on the Airport or WiFi icon in the menu bar. Click on **Turn Wi-Fi Off** and then **Open Network Preferences.**

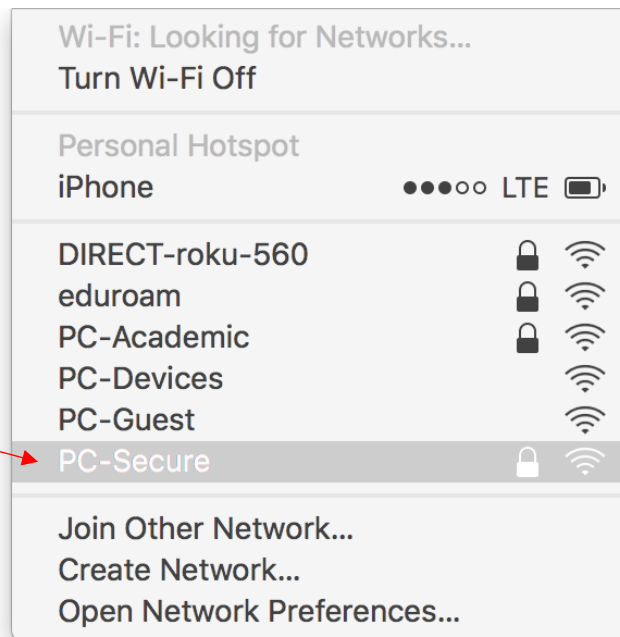

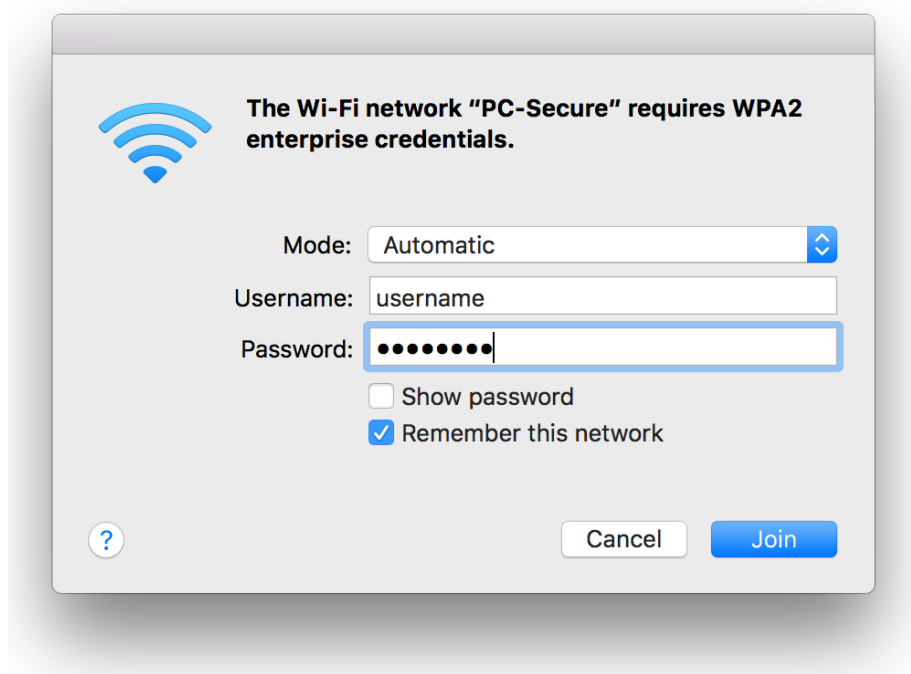

2. In Network Preferences, click on **Advanced**.

3. On the Wi-Fi tab select PC-Secure and then click the **(–)** button to delete the configuration. Next click **OK**.

4. Click on the Airport ![wifi icon] or WiFi icon in the menu bar. Make sure to turn W-Fi back on then click on **PC-Secure**.

5. Enter your Providence College network username and password in the respective boxes. Click **Join**. On the warning about the Certificate, click **Continue.**

You should now be connected to the internet.
