

# Cox Business Contour on Campus

Contour on Campus. Finally, students can experience TV anywhere on campus because today, students choose their university based on academics, cost, campus and yes, amenities. In our fast-paced information-sharing world, they expect a television-viewing experience that is up-to-the-minute, reliable, and compelling. As they take this first step toward their future, students look for robust on-campus amenities like a seamless, easy-to-use streaming TV experience.

The Cox Business Contour on Campus service brings your bulk video subscription to a whole new level. In addition to the conventional cable service you offer in dorms and school grounds, now your users can access live, streaming IP television around campus on their own portable devices.

## Anywhere Access

The Contour on Campus application can be used by students on their own devices, including PC and Mac desktop and laptop computers, and popular Apple, Android and Kindle devices.

## Safeguard Your Campus

Reduce the likelihood of peer-to-peer content theft. Content available with Contour on Campus is licensed and approved for mobile device-viewing and easily available for your campus users.

## The Bandwidth You Need

Cox Business will provide a data circuit to deliver our IP video content to your campus, ensuring that your existing Internet circuits are not overburdened from delivering bandwidth-intensive streaming video to your network users.

## Easy Sign-In

Contour on Campus integrates with your institution's student directory for shared authentication, allowing your users to sign on with their network credentials.

## Associate Your School With Leading Technology

Adding Contour on Campus to your school's video subscription provides a modern amenity and gives your students the flexibility they want.

## Trust The Partner With Experience

Leverage Cox Business's national Content Delivery Network and IP infrastructure to provide a solid video experience. Local and responsive, we constantly monitor our own state-of-the-art network and the equipment we install on your property. Our team of local engineers and technicians are available to provide on-site troubleshooting and repairs quickly and efficiently.
